

FAQs (Robotics)

WHAT IS A ROBOTICS PROGRAM?

The Robotics Program aims to teach our students about classical mechanics. It includes STEM learning programs that start teaching children fundamental scientific theories and progress to advanced engineering and problem-solving topics as they move through our curricula. By allowing children to immediately apply the theories they learn at the start of our classes by building motorized LEGO® bricks models that demonstrate the theory in action, we ensure that they receive a comprehensive understanding of the topic at hand – at the same time as having fun!

Using this method, we equip children with the 21st-century tools and skills necessary to contribute to STEM fields and engage in the complex challenges posed by the ever-changing demands of today's workplaces.

You may watch more about the kits and the programs on this website:

<https://youtu.be/hjh5dW8C8TY>

- **Will it be a mixed class?**
 - There will be one class per grade level for this school year.
- **Will there be homework or assessments for this class?**
 - None. The program will be purely output-based. The students will be doing all activities in school with the teacher's supervision. Moreover, the students are not allowed to take the robotics kit at home.
- **Can the students still enroll during the Second Quarter?**
 - Yes, they can still join the program with the same amount of fee. Then, the missed sessions will be taken during their summer.
- **How much will the payment be?**
 - The program is 10,800php. You may pay this on an installment basis as follows:
 - 40% upon enrollment for the 1st quarter ($P10,800 \times 40\% = P4,320$)
 - 20% each upon payment for the 2nd, 3rd, and 4th quarters (P2,160 per succeeding quarter)
 - DATE OF PAYMENTS:
 - Aug 18-2nd payment
 - Oct 13-3rd payment
 - Dec 8-4th payment
 - You can pay at any of Pace Academy bank accounts. Please send your deposit slip at payments@paceacademy.edu.ph

- What is the schedule?

ROBOTICS PROGRAM 2023 SCHEDULE

Galileo Technic Program

(2:40 - 3:40 PM, Room 104)

Grade 4 - Wednesdays

Grade 5 - Thursdays

Grades 6 - Tuesdays

Galileo Technic Program (HS)

JHS - Thursdays (2:20 - 3:20 PM)

JHS will have their Robotics Classes in Sgt. Rivera (Room: TBA)

ROBOTICS PROGRAM 2023 SCHEDULE

Big Builders Program

K1 - Tuesdays (11:15 AM - 12:00 PM)

K2 - Tuesdays (2:30 - 3:10 PM)

Bricks Challenge Program

(2:00 - 3:10 PM, Comp. Lab. Bldg. B)

Grade 1 - Thursdays

Grade 2 - Wednesdays

Grade 3 - Tuesdays
